

Henningson, Durham and Richardson
5454 Wisconsin Avenue
Washington, D. C. 20015

Attention: Mr. James E. Shea, Vice President

Dear Mr. Shea:

In conjunction with ongoing budget reviews for fiscal years 1978 and 1979, there is an immediate need for the feasibility evaluation and budgetary engineering estimates generated in the Phase I portion of the Waste Energy Recovery Study. This information is necessary for establishing a funding program by fiscal year and technically defending this Agency's submissions before the Office of Management of the Budget examiner.

As this contract originally was to be completed by 2 April 1976, I must insist that this phase be completed as soon as possible. Consequently, it is requested that the Phase I final report be prepared by 1 March.

Should there be further questions regarding this contract, please do not hesitate to call me on [redacted]

Sincerely,

[redacted]

Chief
